

# UT IMPACT LABS at PARMER

The new home for UT's first off-campus bioscience incubator. The incubator will provide wet lab space for students, professors, and other UT affiliates as they continue to grow their R&D operations within the Austin market.

## DISCOVERY TO IMPACT

The connection between campus innovators and industry, translating academic research into services, treatments, and products benefiting society

## Discovery to Impact Units

- Intellectual Property Development
- Business Development
- Licensing and Collaborative Research
- Texas Innovation Center
- Austin Technology Incubator
- Program Development
- UT Seed Fund
- Life Science Technology Development
- Operations

## OUR FOUR PILLARS

### Culture

Building the culture of innovation on campus

### Programming

Launching new programs that provide a continuum of support for UT creators, inventors, inventors, and entrepreneurs

### Optimizing Outcomes

Minimizing challenges and maximizing deal flows

### Key Performance Indicators

Measuring success based on impact
